

WENDY LIND, RAc
Registered acupuncturist (*CTCMA of BC)

Wendy Lind has been a practitioner and participant in the health and wellness industry for over thirty years.

After suffering an accumulation of sports injuries over the years, Wendy could no longer run or ski. She discovered the benefits of Traditional Chinese Medicine (TCM) and Acupuncture, first hand. A series of treatments changed her entire outlook on health and gave her back the ability to enjoy an active lifestyle once again. It also set her on a new path in life.

Wendy graduated from the Oshio College of Herbology and Acupuncture in Victoria, BC in 2005 after completing an intensive four year training program. She has pursued additional specialties in acupuncture from the MeiZen Acupuncture System in Colorado and with Mary Elizabeth Wakefield, one of the leading proponents of facial renewal techniques in the world.

Wendy's specialized training includes Infertility Treatments, Cosmetic Acupuncture, Weight Loss, and Immune System disorders.

Wendy's history as a fitness trainer and health professional give her a unique insight into the physical and emotional demands placed on us all every day. Her accumulation of training and experience enable her to help her clients establish the necessary balance in life for active and healthy living.

Wendy Lind works from two convenient locations. Her hours and clinic locations are:
